

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

FCS ALTARIUS BRAVO SYSTEMATIC FUND, a sub-fund of FCS GLOBAL FUND SERVICES ICAV (ISIN: IE00BJQST476)

This Fund is managed by FCS Asset Management Ltd.

Objectives and Investment Policy

→ The Fund's investment objective is to achieve positive returns by following an active management strategy with the aim of reducing the overnight risk exposure of the portfolio while seeking to manage the intraday risk.

→ The Fund will invest primarily in derivatives and financial instruments in order to gain both indirect and direct exposure to financial indices including primarily the S&P 500 Index. The Fund will primarily trade in the US market hours when the stocks representative of the S&P 500 Index are actively trading.

→ The Fund may invest in up to 80% of NAV in equities and equity related securities such as common stock, preferred stock, ADRs and GDRs.

→ The Fund may invest 30% in financial indices other than the S&P 500 Index including stock indices and credit or bond indices reflecting specific regions or countries including the G-10 countries and a variety of sectors. The Fund may invest 100% cash and Money Market Instruments. The Money Market Instruments will be rated from high yield to investment grade.

→ Where the Fund seeks to gain direct exposure to the constituents of the S&P 500 Index or other indices, it may invest in equities and equity related securities such as common stock, preferred stock, ADRs and

→ The Fund may invest substantially in government and/or corporate fixed income securities including fixed and/or floating rate debt securities, unrated securities, investment grade-rated and sub-investment grade-rated). The Fund may invest up to 30% in below investment grade securities. The Fund may also invest in fixed income securities with

→ The Fund employs a proprietary systematic process that allows it to identify potential long or short trades in respect of securities or instruments related to the S&P 500 Index while at the same time retaining discretion to determine whether to effect those trades or not taking account of the investment objective of the Fund and prevailing market conditions at the time.

→ The systematic process uses an algorithmic system that allows it to assess the price levels of the market in order to identify which of those trades are likely to be profitable by treating the S&P 500 Index as a proxy for the market as a whole.

→ The Fund may invest up to 10% in aggregate in units of other UCITS, including ETFs. Such UCITS ETFs may embed FDI Instruments.

→ Recommendation: Investment in the Fund may not be appropriate for investors who plan to withdraw their money within 5 years. Investment in the Fund for periods of shorter than 1 year is not recommended.

→ For further information please see the "Investment Objective" and "Investment Policies" sections of the Prospectus and Supplement relating to the Fund. Unless otherwise defined in this document, all words and expressions defined in the ICAV's current Prospectus shall have the same meaning herein.

Risk and Reward Profile

Lower risk Higher risk

← Typically lower rewards Typically higher rewards →

- Category 1 does not mean a risk free investment.
- The risk indicator for the Fund is set at 7 because of the high level of discretion of the Manager, the proposed investment in securities associated in the past to have a high risk level and the Fund's use of derivatives for investment purposes.
- The Fund's volatility has been assessed as high.
- The value of your investment may go up as well as down.
- The risk category was calculated using simulated historical performance data and it may not be a reliable indicator of the future risk profile of the Fund.
- The risk and reward profile shown is not guaranteed to remain unchanged, and this categorization may shift over time.

The Fund is also subject to the following risks which are not included in the calculation of the risk-reward indicator:

Derivatives Risk: The Fund uses derivatives to generate returns and/or to reduce costs and risk. Using derivatives can involve a higher level of risk.

Counterparty Risk: The Fund may be exposed to losses if the counterparty to a repurchase/reverse repurchase agreement does not fulfil its obligations to the Fund.

Operational Risk: There may be risks associated to the safekeeping of the assets by the Depositary and sub-custodians.

Liquidity Risk: Certain investments are less liquid than others and may be more difficult to buy or sell in a timely fashion.

Financial Techniques: The Fund may invest in a wide range of UCITS permissible securities and markets and may use derivatives for hedging and investment purposes which may increase the risks associated with the investment, adding counterparty risks, market risks and liquidity risks. Factors such as the use of derivatives for investment purposes and the investment in securities associated in the past to high risk level make that, the expected maximum limit of annual volatility of the Fund's performance, calculated, recommends to categorize this Fund within scale 7.

A more detailed description of the risk factors that apply to the Fund is set out in the "Risk Factors" section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One off charges taken before or after you invest (maximum fee on subscriptions and redemptions)	
Entry Charge	N/A
Exit Charge	N/A
Charges taken from the Fund over the last term	
Ongoing charges	0.72%
Charges taken from the Fund under specific conditions	
Performance fee	20% of Net New Appreciation, if any, achieved during the Performance Period. No Performance Fee was taking during 2019

The ongoing charges figure is based on forecasting the recurring expenses to an annual basis plus the extraordinary expenses of the year divided by the total Assets Under Management at the moment of the observation. This figure may vary from quarter to quarter. It excludes:

- Performance fees (Please see example of calculation methodology in the Fund’s Supplement).
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see “Fees and expenses” of the Fund’s prospectus, which is available at www.fcs-am.com

Past Performance

- All the charges indicated above are charged on this performance graph.
- The return currency is the Euro.
- Please be aware that past performance is not indicative of future results.
